

MEDIA RELEASE:

On Sunday 30 October from 1-5pm, **Queen Street Studio** will throw open the doors to **FraserStudios** in Chippendale for the final **FraserStudios Open Day** of 2011.

FraserStudios is an initiative by developer **Frasers Property** to make creative use of otherwise vacant warehouses within the Central Park site. FraserStudios is managed by **Queen Street Studio**.

The public will have the rare chance to explore the working studios of our current Visual Artists and view an exhibition of their work in Studio 12 to see firsthand what our current Vis Artists have been up to.

Plus enjoy informal artist chats with Visual Artist **Craig Waddell** and performances and Q&As from Blueprint Residents **Leeke Griffin**, **Venettia Miller** and **Ryuichi Fujimura**.

Also open for the day are our neighbours **Assemblage Studio** (42 Kensington Street), where Sydney-based artist and designer (and ex-**Queen Street Studio Resident**) **Damien Butler** will be giving demonstrations of digital fabrication tools in artist practice, including laser cutting, CNC milling and 3D scanning at 2:30, 3:30 and 4:30pm.

Join us for a casual Sunday afternoon barbeque, a couple of drinks and some tunes.

In the studio:
